Josmary P. Pirela G.

Software Engineer • Full-Stack Developer

PROFILE

Full-cycle Software Developer — architecture, development, testing, security, CI/CD, observability, and performance optimization. Over 254 tests across all projects. A+ Observatory score. PageSpeed 90–100.

EXPERIENCE

- Independent Software Projects**
Jan 2026 – Present
 - Full cycle: architecture, CI/CD, testing, observability
 - Built and published 3 professional-grade applications
 - A+ security ratings and PageSpeed scores 90–100
- Self-Directed Learning**
2022 – 2025
 - Strong foundations in web development and modern frameworks
 - Mastery of Next.js, React, TypeScript, and backend systems
 - Focus on security best practices and testing methodologies

PROJECTS

- VIL Assistant**
AI assistant with Groq, web search, speech synthesis, and authentication. Next.js 16, PostgreSQL, Drizzle ORM, Sentry. 150 tests.
- BeeHive Dashboard**
Gamified productivity suite — Pomodoro, Kanban, XP system, authentication. Next.js 15, Zustand, Dexie.js, @dnd-kit. 104 tests.
- Portfolio**
3D Canvas, Web Audio API, i18n, contact form. Next.js 16, Canvas API, Framer Motion. 141 tests.

EDUCATION

- Systems Engineering**
Universidad Santiago Mariño • 2023 – Present
- Oracle Next Education + Alura**
Oracle • May 2023
